

BDSM App – Invio richiesta REST

Utente con token di accesso

UC2.2.1 Invio richiesta  
contente token

UC2.2.3 Ricezione  
risultato

UC2.2.2 Fallimento  
richiesta

<<extend>>

```
graph LR; User[Utente con token di accesso] --- UC2.2.1(UC2.2.1 Invio richiesta  
contente token); User --- UC2.2.3(UC2.2.3 Ricezione  
risultato); UC2.2.2(UC2.2.2 Fallimento  
richiesta) -.->|<<extend>>| UC2.2.1;
```

The diagram is a UML Use Case Diagram for the 'BDSM App – Invio richiesta REST' system. It features a stick figure actor on the left labeled 'Utente con token di accesso'. Two solid lines connect this actor to two use cases: 'UC2.2.1 Invio richiesta contenente token' and 'UC2.2.3 Ricezione risultato'. A third use case, 'UC2.2.2 Fallimento richiesta', is positioned to the right. A dashed arrow points from 'UC2.2.2' to 'UC2.2.1', with the label '<<extend>>' written above the arrow. All use cases are represented by yellow ovals with black outlines and shadows. The entire diagram is enclosed in a rectangular frame.
